

KANGA CUSTOM BUILT TRAILER SYSTEMS

FRANKS

1.8T Single

3.5T Tandem deluxe

2.0T & 3.5T Tandem

The inventors of the world's first 'stand-on' skid steer loader introduce Custom Built Trailer Systems. A complete 'turn-key' business solution, a Kanga Trailer offers the ultimate in portability, convenience and profit potential for a Kanga Loader-based business. Manufactured to the same exacting engineering standards as each and every Kanga Loader, a Kanga Custom Built trailer will give you many years of reliable, trouble-free service.

The intent of this document is to identify standard configurations of the KID and Kanga trailers, this is a guide only and common sense prevails, all trailers have weight limitations as shown on the identification tag on the draw bar. Due to a policy of on-going research and development, Kanga reserves the right to change equipment specifications without prior notice. Please contact your Kanga dealer for further information.

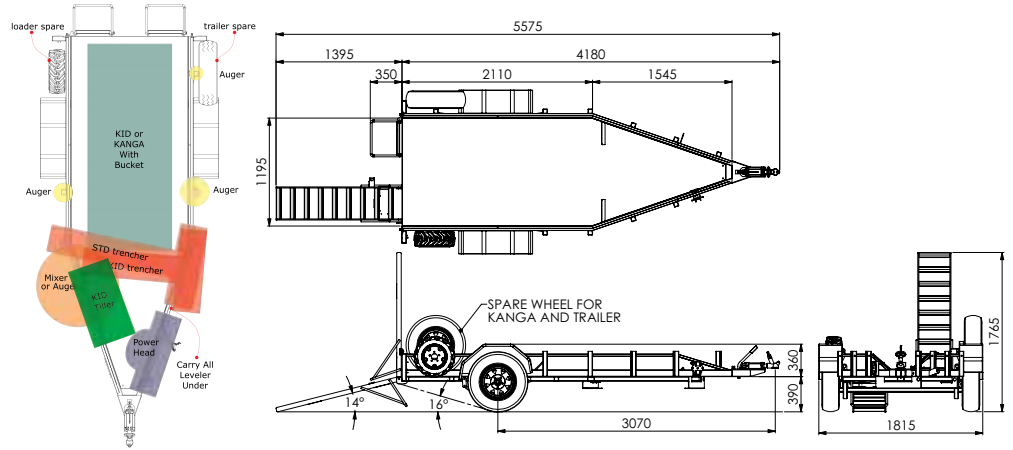

ADVANCED ENGINEERING TURNING HARD WORK INTO EASY BUSINESS

1.8T Single

Specifications

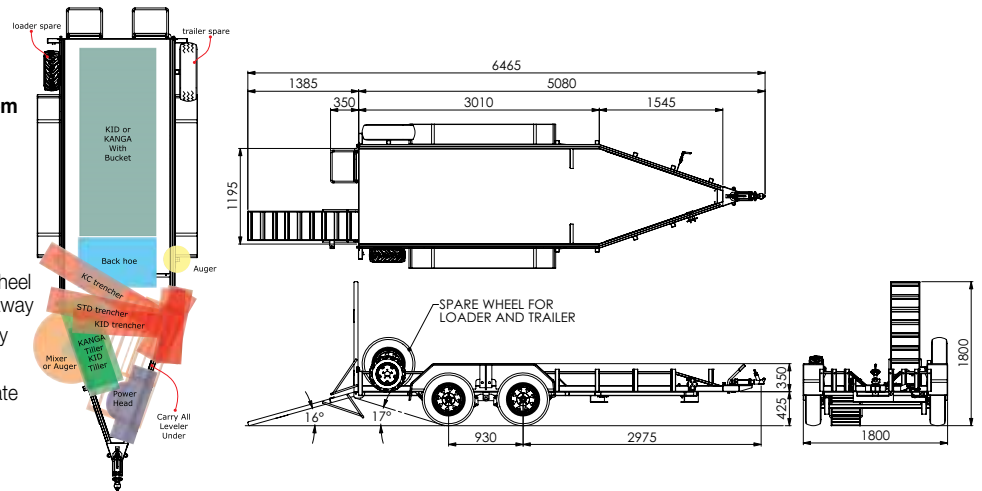

Part No	OK90404
Attachment Mounts	KID/Kanga
Tare	435kg
Axle Capacity	1850kg
Max Load	1415kg
Brakes	Electric
Tyres	195x14x8ply
Rims	14x6
Floor	Checker Plate
Ramps	2 x ramps
Spare Wheel	14x6
